

GOOGLE DEVELOPER STUDENT CLUBS

LBS INSTITUTE OF TECHNOLOGY FOR WOMEN

REPORT 2023-2024

Google Developer Student Clubs
LBS Institute of Technology for Women

1. INTRODUCTION

The Google Developer Student Clubs (GDSC) is a global program initiated by Google Developers to foster collaboration and skill development among student developers. GDSC chapters are established in universities and colleges worldwide, aiming to provide a platform for students to learn and practise various Google technologies, including but not limited to Android, Cloud, Machine Learning, Web Development, and more.

The objectives of GDSC are multi-faceted:

- **Skill Development:** GDSC empowers students with practical skills in software development, cloud computing, data analysis, and other emerging technologies through workshops, seminars, and hands-on projects.
- **Community Building:** GDSC chapters serve as vibrant communities where like-minded students can connect, collaborate, and share their knowledge and experiences in technology.
- **Industry Exposure:** GDSC provides students with opportunities to interact with industry experts, mentors, and professionals through guest lectures, networking events, and industry-sponsored projects.
- **Innovation and Entrepreneurship:** GDSC encourages innovation and entrepreneurship among students by fostering a culture of creativity, problem-solving, and project development.

Brief summary of the reporting period (January 2023 to June 2024):

The reporting period from January 2023 to June 2024 has been marked by dynamic growth and impactful initiatives within our GDSC chapter. Throughout this period, our dedicated team of student leaders and members has worked tirelessly to organise a series of engaging events, workshops, and projects aimed at enriching the technological skills and experiences of our fellow students.

Highlights from this reporting period include:

1. **Inspira 1.0 (March 2023):** Collaborated with Google's Women Techmakers Community for a one-day event, educating young girls about technology and empowering inmates of Sree Chithra Home for Destitutes and Infirm.
2. **Google Cloud Campaign (November 2023):** Successfully organized a campaign reaching tier 1, engaging over 80 students and providing swags from Google, fostering interest in cloud computing.
3. **Inspira 2.0 (March 2024):** Conducted the second edition in collaboration with Google Women Techmakers, focusing on spreading awareness about Google technologies to diverse audiences with initiatives like #GoogleForEveryone.

Overall, the reporting period has been characterised by a vibrant and active GDSC community, dedicated to fostering a culture of learning, collaboration, and innovation among student developers. We look forward to building upon our achievements and continuing to empower the next generation of tech leaders in the months ahead.
